COMPUTER ARCHITECTURE

Devices and Peripherals (Input / Output)

Direct interaction between digital processing and the physical world

STUDENT
Juan Pedro Caballero Morales

Computer Systems

PRESENTATION STRUCTURE

Table of Contents

01 **General Introduction**
Key concepts and the role of human-computer interaction.

02 **Main Functions**
Direct interaction with CPU, motherboard, and ports.

03 **Key Specifications**
Connectivity, speed, resolution, and power consumption.

04 **Real-World Examples**
Practical analysis of HP 150 and ASUS VY249HGR hardware.

05 **Interactive Kahoot Quiz**
Interactive quiz to reinforce core concepts.

INFORMATION FLOW

Input and Output Devices

Input Devices

Send information from the physical environment to the computer for processing.

- Keyboard: Typing text and entering commands
- Mouse: Cursor control and graphical interaction

Output Devices

Present digital processing results to the user in a human-readable format.

- Monitor: Displays images and visual interface
- Printer: Physical output on paper documents

HARDWARE ARCHITECTURE

Main Functions and Interconnection

CPU Processing

The CPU processes information entered via keyboard and mouse.

Motherboard Routing

Connection via physical ports and wireless interfaces.

Visual Feedback

The monitor displays processed data in real time.

TECHNICAL CRITERIA

Key Hardware Specifications

Connection
USB cables, HDMI, or wireless Bluetooth.

Speed
Data transfer and execution rate.

Resolution
Visual quality and image detail level.

Compatibility
Native support for OS and hardware.

Power Consumption
Electricity required for continuous operation.

REAL-WORLD EXAMPLES

Commercial Hardware Analysis

INPUT DEVICE

HP 150 Wired Keyboard

Direct USB connection for typing text and entering commands.

Price: ~€15

OUTPUT DEVICE

ASUS VY249HGR 23.8”

FullHD 120Hz LED IPS panel with HDMI and VGA ports.

Price: ~€80

INTERACTIVE ASSESSMENT

Test Your Knowledge

Kahoot Quiz

Join the interactive self-assessment on computer peripherals and devices.
